Languages: C++, Python, Java, HTML/CSS, JavaScript

Developer Tools: Figma, Miro, Sketch, AdobeXD, Adobe InDesign, VS Code, Xcode, IntelliJ, GitHub

Skills: High-fidelity Wireframing, Prototyping, User Experience Design, Qualitative User Research, Surveys, User Interviews, Data Cleaning, Modeling, Clustering, Regression Analysis, Classification, Usability Testing, NLP

EXPERIENCE

SIZZLE

August 2023 – Present

UX Design Intern

Garden Grove, California

- Collaborated in a cross-functional team of 4 to create a versatile, cross-platform app facilitating communication between dietitians and patients for gut health and weight management.
- Designed 10+ high-fidelity wireframes and user flow using Figma for the Dietitian Dashboard through timelines, detailed charts, and organized data cards to enhance user experience and interaction between Dietician/Patient data.
- Implemented advanced search and filtering functionalities, enabling clinicians to swiftly locate patient data, streamlining diagnostic processes, and enhancing patient consultation efficiency.
- Conducted user research and translated insights into intuitive design solutions.

Google Developer Student Clubs

August 2019 – July 2021

Marketing Lead

Mira Mesa, California

- Worked closely with a team of 15 club members, advisors, and a designated Google Developer Mentor.
- Managed social media accounts on LinkedIn, Facebook, Instagram, and Twitter.
- Led over 25 peer-to-peer technical workshops, training over 200 participants in hands-on use of Workspace's core application, G-Suite.
- Created 10+ workshop flyers, photo props, social media posts, resulting in a 30% increase in student attendance over a six-month period.

Starbucks

December 2020 – August 2022

Barista

San Diego, California

- Delivered outstanding customer service in a high-stress and fast-paced drive-thru cafe environment.
- Cultivated strong relationships, memorizing drink order preferences of regular customers.
- Learned over 20+ recipe combinations and made hand-crafted hot and iced beverages rapidly.
- Maintained clean working environment.

PROJECTS

Bobeco Application | *Figma, Miro*

Fall 2023

- Collaborated in a team of 4 students on a design project as part of the DSGN 100 course.
- Designed high-fidelity prototype for boba cafe kiosk concept using Figma.
- Conducted UX research, data analysis, and user interviews.
- Built wooden kiosk prototype in UC San Diego's Design Lab and Woodworking Studio.

Calendar Exercise Logger (GymBois) | *React Native, Firebase, Javascript, Expo Go*

May 2023

- Collaborated in a team of 6 students on a CS project.
- Developed a user-centric app using React Native and Firebase, featuring 11 distinct functionalities.
- Amplified user interactivity by embedding a personalized dashboard, dynamically displaying progress graphs, milestones, and recommendations based on individual user exercise data, promoting a tailored user experience.
- Utilized responsive design principles to ensure a seamless, efficient, and intuitive user experience, demonstrating meticulous attention to detail by ensuring compatibility across multiple devices and screen sizes.
